SoulCraft Download For Pc [Torrent]

Become an arcane legend and bring back order into a world of chaos Unleash your wild blood!FeaturesAction RPG that can be played completely OFFLINE!Playable via GamePad, Mouse, Keyboard or Touch.. This game is great to kill time when you don't have much time allotted to play anything at all.. The game does get very repetitive though There aren't many level designs and after killing the same 5 mob types for an hour boredom will start to set in.. No gameplay Why my game graphics is bugged, i dont recomend this game if it's not playablehttp://vimgur.. The game has played fine so far without using cash to purchase rewards The game plays well for the 5 dollar price.. Don't expect an epic Titan Quest type adventure, but for \$4 00 it's worth it for the short mindless pick-up and go sessions.

Recommend? No Pros:- Kinda nice graphics, warcraft-esque Cons:- Mobile port - Bugs! BUGS!- REALLY linear.. It is very easy to pick up and put down being that the average quests takes 3 to 5 minutes to complete.. Simple Action RPG game with lots of hack n slash and dungeon crawlingCombat demons in real locations such as Venice, Rome & Hamburg, New York & Egypt.. ly/2z1kXm2About This GameHumankind is on the brink to discover the secret of eternal life.. SoulCraft lets you play as an angel and it's up to you to decide who will win the war – the Evil itself from hell, God in heaven or the humans.. com/vkotwsS3 This is a fun casual game, but don't expect great depth from it.. Kill like a knight of heaven (aka angel) 1075eedd30Title: SoulCraftGenre: Action, Casual, Indie, RPGDeveloper:MobileBitsPublisher:Headup GamesRelease Date: 1 Jun, 2015English,French,Italian,German,Portuguese A decent port of an Android game.. More locations coming soon!Five different game modes in legendary quests including time run, arena, hellgate, crystal defense and boss fightsBattle lots of different and diversified enemies and fight with lots of weapons, swords, items, spells, equipment, gear and loot.. if that makes any sense Somewhat recommended if on sale or free I honestly wasn't expecting much, but SoulCraft is just fun enough to play in short bursts.. With over six million users SoulCraft is one of the best Action RPG games for Android, iOS and Windows Phone - now it is also available on PC!Have you ever levelled up a ranged hunter or a wild melee fighter in good old Hack 'n Slash fashion? Collected loot en masse and upgraded countless equipment to epic proportions?! Felt good, didn't it? Then now it's time to fulfil your destiny: Do your duty, be a legendary hero and fight for the balance of life itself and be a beacon in this darkest of times in the action RPG SoulCraft.. The crafting system and items/equipment aren't nearly as fleshed out as most other hack n' slash rpgs, but they add a decent enough touch.
